**1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)**

I am a customer of Dominion Energy who also has a home rooftop solar installation.

**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

I am writing to protest Dominion Energy's proposed rate hike on customers with solar energy installations. As summarized by the Southern Environmental Law Center:

Dominion's basic service charge for all customers that is, the amount a customer pays before flipping a single light switch -- is \$9 a month. But solar customers would pay \$19.50 a month. Dominion's new "solar subscription fee, of \$5.40 per kilowatt of solar installed would mean a typical customer with an 8kW system would pay \$43.20 per month.

Taken together, the new Dominion charges would mean a typical solar customer would pay \$752 yearly just in unavoidable fees, or seven times what that customer pays now

**3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? \***

If requested
